

## UTILITY BELL 505

### ADAPTS TO YOUR NEEDS ON THE FLY.

Reasons to take to the air are diverse. Your helicopter's configurations should be too. That's the flexible design strategy behind the Bell 505. From sightseeing to supply runs, the 505's spacious cabin, with easily removable rear seats and integrated floor tie downs, quickly converts for carrying crew, customers or cargo. Moderately priced and pilotable from left or right seats, it's both affordable and adaptable. As swift to convert and load as it is to fly, you'll spend more time in the air than on the ground.

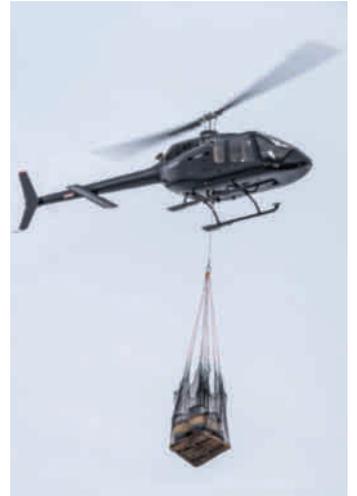

Four Point Seat Belts, Spacious Seats, Great Visibility and Ample Leg Room Maximize Passenger Comfort

2,000 lbs. Cargo Hook Capacity and Cargo Weighing System

Flat Floor with 99 ft<sup>3</sup> of Cabin Space and Integrated Tie Downs

1,500 lbs. Internal Useful Load  
2,295 lbs. External Useful Load

## QUICKLY CONVERTS FOR CREW, CUSTOMERS OR CARGO.

A successful utility operation means being able to adapt quickly. That's why we've built the versatile Bell 505. Whether it's touring the coast, carrying a work crew and supplies deep into the mountains or providing air crane services in a busy city, the Bell 505 is agile, reliable and easily convertible.

### MANUFACTURER RECOMMENDED EQUIPMENT

- Cargo Hook and Provisions
- Removable Dual Pilot Controls
- Radar Altimeter
- Sliding Windows
- Cargo Weighing System
- Cargo Mirrors
- Emergency Locator Transmitter (ELT)
- Rotor Brake

### ADDITIONAL KITS AVAILABLE

- Air Conditioning System
- Automatic Door Openers
- USB Charging Ports
- Cabin and Cargo Bay Floor Protectors
- High Skid Gears
- Avionics Upgrade (HSV, HTAWS, TAS)
- Equipment Rack
